

Position Permanent, Full Time
Job Title Senior or Principal Electrical Design Engineer
Location Manchester

THE ROLE

We are currently seeking an exceptional Senior or Principal Electrical Design Engineer to join our expanding team in central Manchester.

The main responsibilities would be to deliver large complex and niche projects on time and to the highest technical standard along with management support.

You will need to be both a team player working within a multidisciplinary group assisting other senior engineers along with helping and encouraging the graduate members, and have the initiative to work alone. You will monitor the quality control on projects to ensure the company quality standards are being achieved, prepare calculations / specifications and drawings, ensuring they comply with the clients brief.

THE INDIVIDUAL

You will be an enthusiastic individual, with relevant electrical design qualifications—ideally a degree in Electrical Design, and should be a Chartered Engineer or possess the desire to become Chartered by CIBSE or IET.

You will have 8+ years' proven electrical design engineering experience working on commercial (new build, refurbishments and fit out) developments, and will ideally also be experienced in laboratories, universities and/or hotel developments. You should possess an in depth knowledge of Building Services Engineering Systems including their performance, application and operation, gained in a design office.

The successful candidate will be a proactive, adaptable, and approachable engineer with excellent client facing and communication skills at all levels, and takes the initiative.

PACKAGE?

Competitive salary, 25 days holiday, performance related bonus, pension scheme, private healthcare, life assurance, Employee Assistance Programme, childcare vouchers and more.

INTERESTED?
